**REMARKS**

In the Examiner's Comments attached to the Notice of Allowability mailed December 16, 2004, the examiner indicated that Figure 11 was not acceptable because it was "impossible to discern the features of the figure." The Examiner then requested a corrected Figure 11.

Applicant has accordingly attached a new drawing for Figure 11. This drawing is actually a photograph illustrating a photo of a prototype device. Figure 11 clearly shows the facemask 120, airway tube 130, and sensor housing 110. Acceptance of Figure 11 and issuance of the present application are respectfully solicited.
